## PX Series

### Integrated LCD Touchscreen

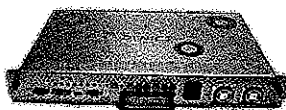

The PX Series is a complete line of interactive displays ranging in size from 32" to 82" featuring Multi-Touch screen optical sensor technology for unparalleled performance and superior visual.

Designed specially for interactive display applications, the PX monitors feature a rugged 14 gauge steel enclosure and bright, high-performance LCD displays providing exceptional durability with less noise, lower heat output & excellent visuals for prolonged public interaction.

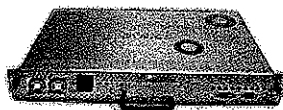

- 32" to 82" size displays
- Optical touch screen available
- Rugged steel structure
- 5 Year Warranty on Industrial Rated Power Supply
- Bright, high-performance LCD
- 3 versions of ModPak models

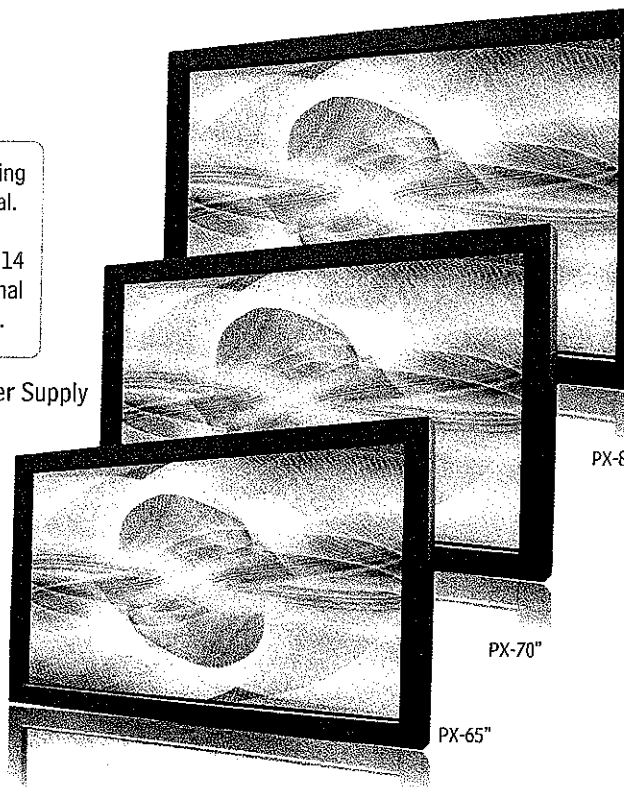

MODPAK - Full PC Engine

MODPAK - Pro AV  
Full Feature Controller  
RS/232

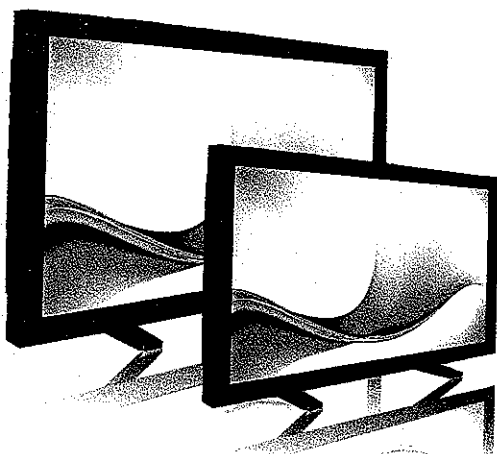

MODPAK - Standard Monitor  
Basic Feature  
Video Controller

## OLX Series

### Integrated Overlay Series

The OLX Series are integrated Overlays that bring a multi-touch solution to commercial large screen monitors. Each overlay is designed for a specific commercial monitor which, unlike the typical "one-size-fits-all" overlay, provides a fully integrated look and feel.

Plus, because it is an overlay which does not compromise the commercial monitor construction, all warranties apply, dealers maintain their standard discounts and with a two-piece solution, serviceability is simplified.

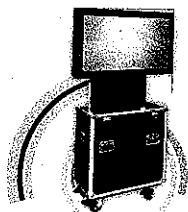

Each OLX overlay utilizes a four piece cover system that provides customers with many customization options. Sizes range from 32" to 82".

- Multi-Touch optical touch sensor
- Durable steel construction
- Easily customizable covers/designs
- One-Piece look & feel
- Easily integrates with all Commercial Monitors
- Can be purchased already integrated

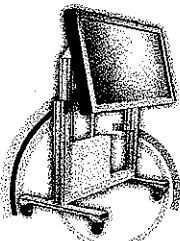

## Accessories

### For PX or OLX Series

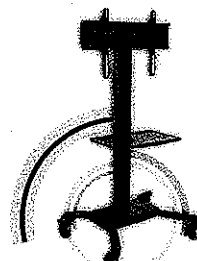

The versatility of the PX and OLX Series allow for mounting in various units with mobility in mind. All our units have universal mounting VESA pattern in 200, 400, and 600mm.
